

WE HAVE A DREAM: A WORLD WITHOUT RACISM

MARCH, 2021 - How Baltimore Apartheid Contributed to National Segregation (with guest speaker Dr. Lawrence T. Brown)

We opened with prayer.

We thanked our legislative advocacy group and welcomed our guest speaker, Dr. Lawrence T. Brown, who gave an excellent presentation. We recommend you watch the recording or read the book to more fully understand present day Baltimore and our racist history.

Dr. Brown covered Baltimore apartheid and his approach to a reparations effort. He reiterated the ways hyper segregation and spatial segregation continue to dispossess African Americans of equal opportunity in education, housing, resources, wealth building, and healthy neighborhoods.

He recommended working with the leadership in a redlined black community as they decide how to improve their neighborhood. His primary focus was the history of Baltimore as the originator and role model of segregation, copied nationally.

Dr. Brown answered questions from the group and encouraged our effort.

We ended with prayer.
